RE: Operation of water system

Thank you for the opportunity to offer This proposal for the operation of the Blue Ridge DWID

a Quality Water co. proposes to perform the following tasks as routine for the operation of the Blue Ridge DWID water system.

Routine tasks included in this proposal:

(Operations) Operator of record as required by ADEQ, a licensed operator will perform system checks as needed, system equipment checks and routine maintenance as needed or required by manufacturer, routine chlorine residual checks, monthly meter reads, sampling required by ADEQ and EPA, Certified operator duties, all correspondence with regulatory agencies including all required reporting to regulatory agencies, liaison between the District and ADEQ, all regulatory inspections, routine Blue Stakes, meter location program, operator on call 24/7/365 with a 2 hr. response time to emergency call outs to identify issues with the system, meter verification program (if needed), valve exercise program, routine meter change outs, line flushing and building maintenance.

a Quality Water co. also has an excavating side of the operations with an Arizona General Contracting license and can respond to any emergencies within hours.

a Quality Water co. proposes to perform the above tasks for \$10 per meter per month, this price includes laboratory fees. Any non-routine services will be billed at \$75 per hour.

a Quality Water co. confident that we can operate your system correctly, professionally and efficiently, with cost savings to the District and residents of the Blue Ridge DWID.

Our team looks forward to working with your Board and the residents of your community to create a long term sustainable and safe water system.
