This community Blue Ridge/Happy Jack, is my home with many friends and neighbors who mean a great deal to me. As a fulltime resident and active member in our Blue Ridge Community, I realize the importance of our local water district. Keeping local control and management of our water is vital for our future. Our current board members care about our community and keeping costs under control as residents themselves. I will commit my available efforts to support the purchase of the Starlight water company and work with the remaining board members to provide affordable water for all residents, and continue the transparency the current board provides.
